

# POWER SUPPLY UNITS

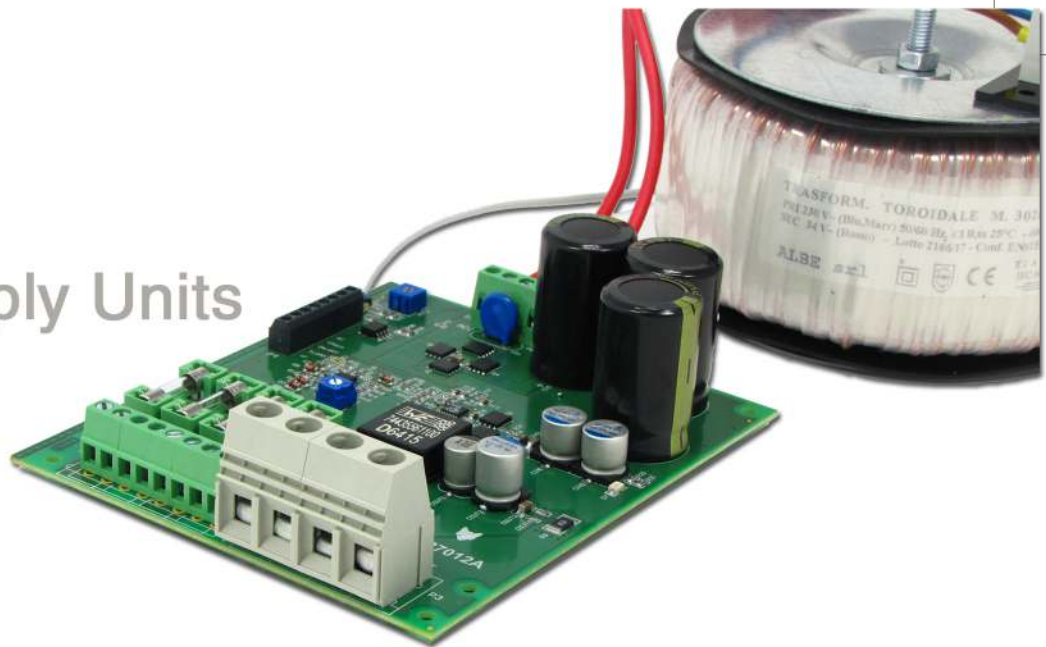

EVAC Systems  
EN54 EN12101-10

PRODOTTO  
ITALIANO

## EVAC Power Supply Units

WOLFSAFETY, the Italian manufacturer of power supply systems, now is proud to offer a brandnew power supply units line, voted specifically to power **EVAC systems: FIREWOLF** power line.

**Super power supplies for FIRE sector** designed to fit all needs of smokes and audio evacuation systems.

- N.2 versions (wall mounting & rack) and n. 4 models, for any kind of applications.
- Suitable to power all EVAC systems
- Designed to meet EN54 and EN12101-10 standards.
- Capable to manage all batteries till 150 Ah
- Capable to supply till 70A power in absence of electricity

### UC-2740EV UC-2770EV

Super power supply units designed for FIRE sector  
Dimensions: 385 (H) x 445 (L) x 185 (D)

Installation: wall mounting

Applications  
**(FIRE)**

- current load until 6,3A
- EN54-4: High efficiency batteries until 70Ah
- long life battery performance

**(SMOKE evacuation)**

- evacuation and extraction
- EN12101-10: current load until 35A
- High efficiency batteries until 70Ah

**(EVAC audio)**

- Audio evacuation
- EN12101-10: current load until 35A (1 KW)
- High efficiency batteries until 70Ah (N.2 boxes)

Super power supply units designed for FIRE sector

Dimensions: rack 3U 135 (H) x 270 (D)

Installation: Rack mounting

Applications

**(FIRE)**

- current load until 6,3A
- EN54-4: High efficiency batteries until 150Ah
- long life battery performance

**(SMOKE evacuation)**

- evacuation and extraction
- EN12101-10: current load until 60A
- High efficiency batteries until 150Ah

**(EVAC audio)**

- Audio evacuation
- EN12101-10: current load until 70A (2 KW)
- High efficiency batteries until 150Ah
